

Science 10

Day #3

Distribute the fire extinguishers handout

Discuss the importance and application of each type of extinguisher.

Q: What type of fire extinguisher do we have in our class?

A: ABC multipurpose.

Q: What kind of fire is our fire extinguisher not suitable for?

A: Metal fire.

Distribute the safety labels booklet.

Students need to know all three labeling systems.

For WHIMIS:

Omit the oxidizing label

Be sure that students know the difference between the different poisons

Students should know the 3 components of WHIMIS

- i. The labels
- ii. MSDS sheets
- iii. Training

For the NFPA (diamond) system:

Students should memorize a code 4 and 2 (clarify new vocabulary)

Omit oxidizers and polymers for specific hazards at the bottom

Show the Jefferson high safety video.
