

Activity 1F: Yeast Reproduction

Name: _____

Partner: _____

Date due: _____

Purpose:

Methods and Materials: Refer to BC Science 9 Connections pages _____ - _____.

Prediction: -

Observations:

Table 1. Resulting circumference of a balloon due to reproducing yeast at various temperatures.

Temperature of water	Circumference of balloon (mm)
Ice Water	
Room Temperature	
35°C	
65°C	

Questions (Staple your answers to the assigned questions to this page)

Conclusion: (Answer the purpose and conclude on the class results compared to your prediction)
