

Wages Practice

Show all your work and round to the nearest hundredth.

1. What is your daily income if you earn \$17.25/h as a camp counselor and you work 9 hours per day?

2. Dan works as a cashier and works 37.5 hours per week. If he makes \$18.95/hr.
 - a. How much does he make per week?

 - b. What would be his gross annual income (based on 52 weeks per year)?

 - c. Calculate his average monthly income?

3. Laura worked as an assistant at the National Metis Youth Conference. Her job was to provide support to people giving workshops. Lauren worked for $7\frac{1}{2}$ hours at a rate of \$16.36/h. How much did she make?

4. Juanita has been offered a job that pays \$497.35 for a 35-hour work week. A second company offers her a job at \$16.75/h, but will only guarantee 30 hours per week. Which job would you advise Juanita to take? Justify your decision using math!
5. Rita's annual income at her part-time job walking dogs is \$6758.00. Assuming she works the same amount of time each week, what is her average weekly salary?
6. Shelby works at Tim Horton's and earned \$43,995 last year.
 - a. What was her average monthly income?
 - b. What was her average weekly income?
 - c. If she worked an average of 37.5 hours per week for 52 weeks, how much did she make per hour?

7. Brandon is an electrician's apprentice and earns \$32/hr. If he works 40 hours per week, what will he earn:
- For 1 week's work?
 - As an annual income?
 - as an average gross monthly income?
8. Abdul's time card is below. If his hourly wage is \$17.25, how much did he earn during the week?

Day	Morning		Afternoon		Total Hours
	IN	OUT	IN	OUT	
Monday	9:00	12:15	1:30	5:00	
Tuesday	9:15	12:15	1:15	4:30	
Wednesday	8:45	12:15	1:00	4:15	
Thursday	9:00	12:30	1:30	4:15	
Friday	8:45	12:45	1:00	4:15	

9. Karen works at a Chinese food restaurant. She earns \$16.75/hr. She works the following hours: Monday, Wednesday, Friday from 11:00 am until 1:00pm and then 4:00 until 10:00pm. Then on Thursday and Saturday she works 10:30 to 1:30 and 5:00pm to 9:30.
- a. How many hours does she work?

 - b. How much does she earn per week?

 - c. What is her average monthly income?
