1. Shelby is working at an isolated weather station in the Yukon. She earns an annual salary of \$45 650.00 plus \$780/month for isolation pay. If she works at the station for 8 months of the year, what will her annual income be?
2. Ivan gets an annual bonus of 15% of his base salary if he exceeds sales quotas by \$10 000.00. If his base salary is \$42 000.00 and he exceeds the sales quota by the required amount, what is his bonus? What is his total salary for that year?
3. If Shelby left a tip of \$8.50 on a meal of 74.95, what percentage of a tip did she leave?
4. Olivia is at a restaurant in Prince Rupert. She has decided that 20% is too much to leave the waiter who did not provide good service. She feels that 15% is more appropriate for the level of service she received. The meal cost 38.95. How much did she leave for the tip?

5. Kirsten earns a base salary of \$15.20/h plus tips. On a typical day, she bills her customers \$1250 and her tips average 14%. What is Kirsten's average daily income with tips for an 8-hour day?

6. Heather works as a live-in nanny. She earns \$14.60/h plus room and board. If Heather works over 40h in one week, her boss gives her a bonus of \$8.50/h for each extra hour. If Heather works 57.5 h in one week, how much does she earn?

7. Frank works as a door to door salesman in rural Alberta and must use his own car. He is paid \$0.45/km for each kilometer he drives, plus 8% commission on his total sales. If he drove 2354km and sold \$47 854.00 of merchandise, how much would his pay cheque be?

8. Bob earns \$17.23/h, time and a half overtime, and a shift bonus of \$2.65 for each split shifts. If he worked a total of 43.5 hours, 18 hours of which were split shifts, how much did he earn if a regular work week was 38.5 hours?

9. Denise works the following hours at a coffee shop. Her wage is \$15.25/hr. How much did she earn last week?

- Monday 9:00am – 5:00pm
- Tuesday 2:00pm – 8:00 pm
- Wednesday 2:00pm – 7:00pm
- Thursday 12:00pm – 8:00pm
- Friday 9:00am – 3:00pm

10. Bob worked the following hours:

- Monday 9:00am – 9:00pm
- Tuesday 1:00pm – 11:00 pm
- Wednesday 2:00pm – 10:00pm
- Thursday 12:00pm – 10:00pm
- Friday 9:00am – 5:00pm

Bob makes \$25.75/hr for a 40-hour work week. If he works more than 40 hours in a week he gets time and a half for the hours over 40 that he works. How much did Bob earn last week?

11. Drivers for a delivery company are offered a shift premium if they drive the night shift (after 8:00pm) to deliver parcels by 9:00 the next morning. Sam's schedule last week was as follows:

- Monday 12:00pm – 7:00pm
- Tuesday 9:00am – 5:00pm
- Wednesday 6:00pm – 12:00am
- Thursday 12:00pm – 8:00pm
- Friday 3:00pm – 9:00pm

His regular pay is \$14.75/h, and the shift premium is an extra \$7.00/h (on top of his 14.75). How much did he make last week?

12. Arielle works as a welder at a jewelry workshop. She receives annual cost-of-living raises. Her salary before receiving a raise is \$29 535.00. One year she receives a cost-of-living raise of 3.4%. What is her new salary?
